Contattore NC

Contattore NO

Fischio con comando elettrico

Lampada d'emergenza

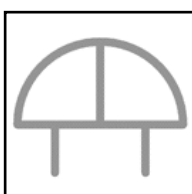

Ronzatore o cicala

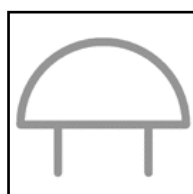

1111

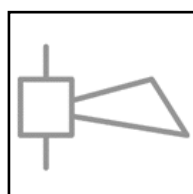

1112

1113

1114

1115

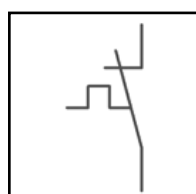

Segnalazione luminosa, segno generale

Sirena

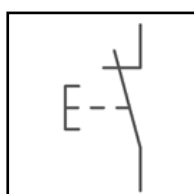

Suoneria ad un colpo

Suoneria semplice

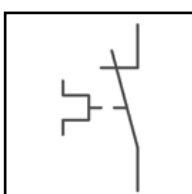

Tromba elettrica, clacson

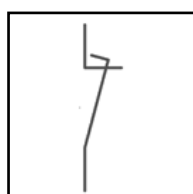

1116

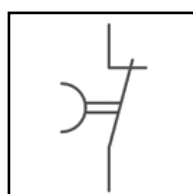

1117

1118

1119

1120

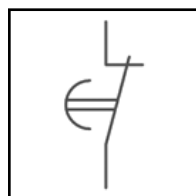

Contatto di apertura ad effetto termico
diretto

Contatto di apertura con comando a
pulsante

Contatto di apertura relé termico

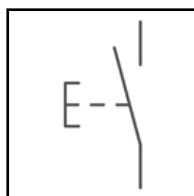

Contatto di apertura ritardato

Contatto di apertura ritardato all'apertura

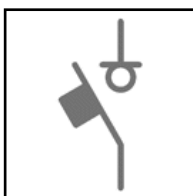

1121

Contatto di apertura ritardato alla chiusura

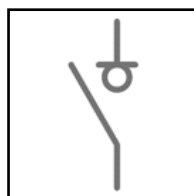

1122

Contatto di chiusura con comando a pulsante e ritorno automatico

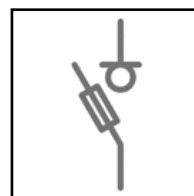

1123

Interruttore di manovra sezionatore ad apertura automatica

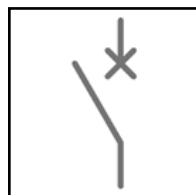

1124

Interruttore di manovra-sezionatore

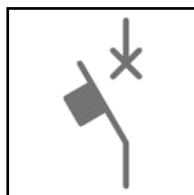

1125

Interruttore di manovra-sezionatore con fusibile

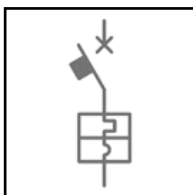

1126

Interruttore di potenza

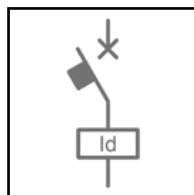

1127

Interruttore di potenza automatico

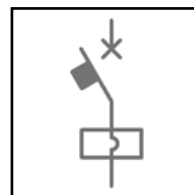

1128

Interruttore di potenza con sganciatore magnetico e termico

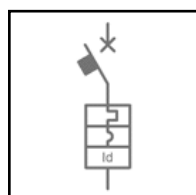

1129

Interruttore di potenza con solo sganciatore differenziale

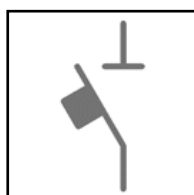

1130

Interruttore di potenza con solo sganciatore magnetico

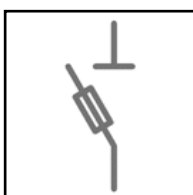

1131

Interruttore di potenza magnetotermico differenziale

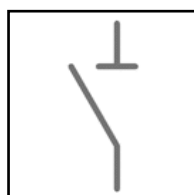

1132

Sezionatore automatico

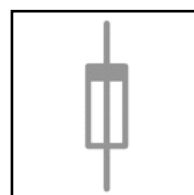

1133

Sezionatore con fusibile

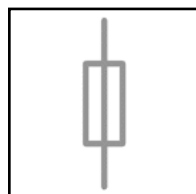

1134

Sezionatore semplice

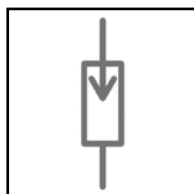

1135

Fusibile con indicazione estremità in tensione

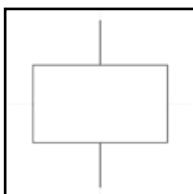

1136

Fusibile, segno generale

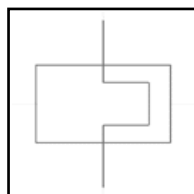

1137

Scaricatore

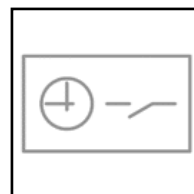

1138

Bobina di un relè

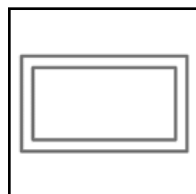

1139

Dispositivo di comando di un relè termico

1140

Interruttore orario

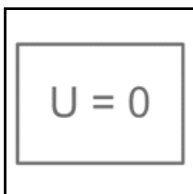

1141

Interruttore crepuscolare

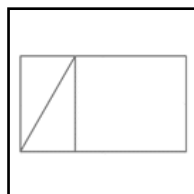

1142

Interruttore temporizzato

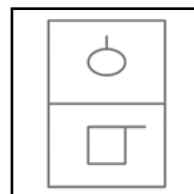

1143

Relè a mancanza di tensione

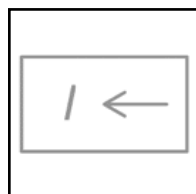

1144

Relè a rimanenza

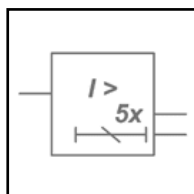

1145

Relè Buchholz

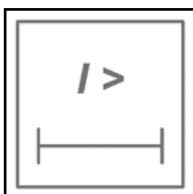

1146

Relè di corrente di ritorno

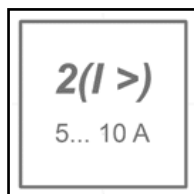

1147

Relè di massima corrente a 2 uscite

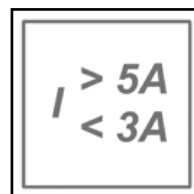

1148

Relè di massima corrente ad azione ritardata

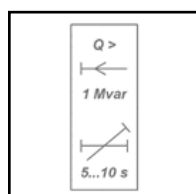

1149

Relè di massima corrente con 2 elementi di corrente

1150

Relè di massima e minima corrente

1151

Relè di massima potenza reattiva

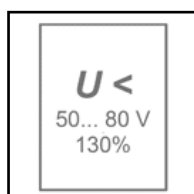

1152

Relè di minima impedenza

1153

Relè di minima potenza attiva

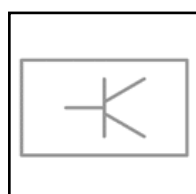

1154

Relè di minima tensione

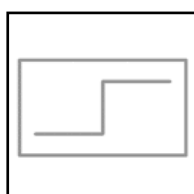

1155

Relè di misura

1156

Relè elettronico

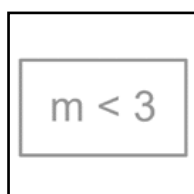

1157

Relè passo passo

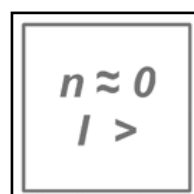

1158

Relè rivelatore dell'interruzione di avvolgimento

1159

Relè rivelatore della mancanza di fase in un sistema trifase

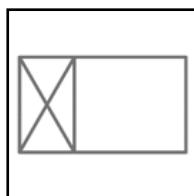

1160

Relè rivelatore di bloccaggio dal rotore mediante misura di corrente

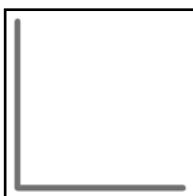

1161

Relé rivelatore di corto circuito tra spine

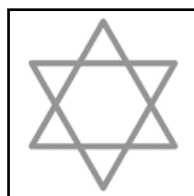

1162

Relé temporizzato

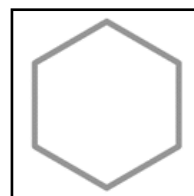

1163

Avvolgimento Bifase

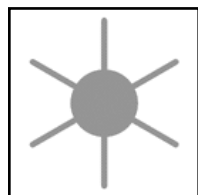

1164

Avvolgimento esafase a doppio triangolo

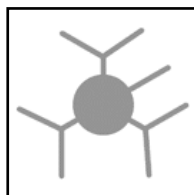

1165

Avvolgimento esafase a poligono

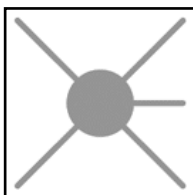

1166

Avvolgimento esafase a stella

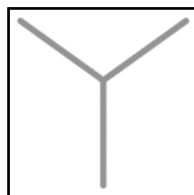

1167

Avvolgimento esafase doppio zig-zag con neutro accessibile

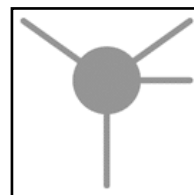

1168

Avvolgimento tetra fase con neutro accessibile dall'esterno

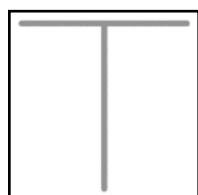

1169

Avvolgimento trifase a stella

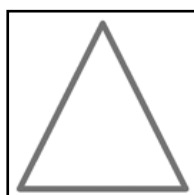

1170

Avvolgimento trifase a stella con neutro accessibile

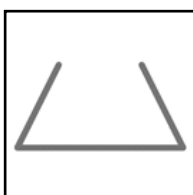

1171

Avvolgimento trifase a T

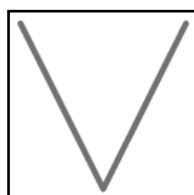

1172

Avvolgimento trifase a triangolo

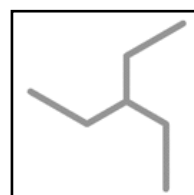

1173

Avvolgimento trifase a triangolo aperto

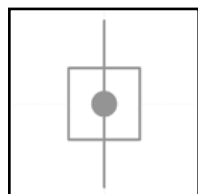

1174

Avvolgimento trifase a V

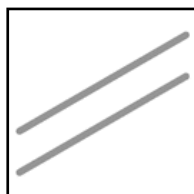

1175

Avvolgimento trifase a zig-zag

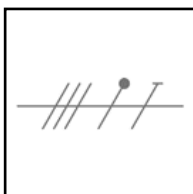

1176

Cassetta di allacciamento d'utente

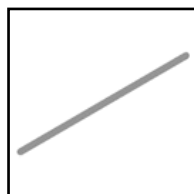

1177

Conduttività bifase

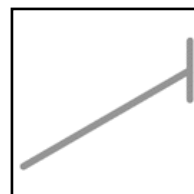

1178

Conduttività trifase con conduttore di neutro e conduttore di protezione

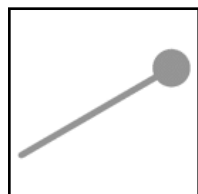

1179

Conduttività unifase

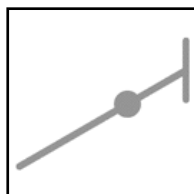

1180

Conduttore di protezione

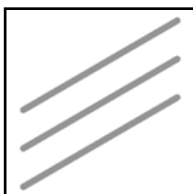

1181

Conduttore neutro

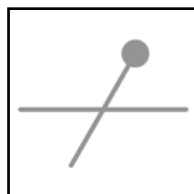

1182

Conduttore neutro congiunzione di protezione

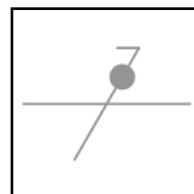

1183

Conduttore trifase

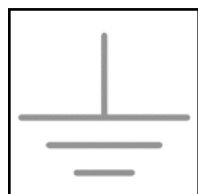

1184

Conduttività fase neutro

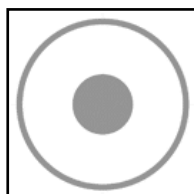

1185

Conduttività fase neutro PE

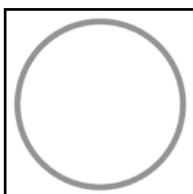

1186

Punto equipotenziale 2

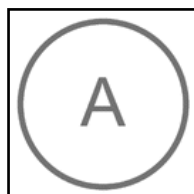

1187

Scatola o cassetta di connessione o di derivazione

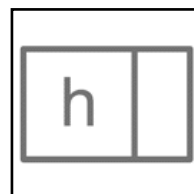

1188

Scatola, cassetta (segno grafico generale)

1189

Amperometro (simbolo)

1190

Contatore

1191

Contatore

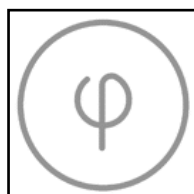

1192

Contatore energia-attiva

Wattmetro

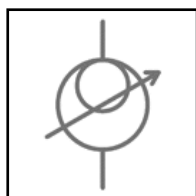

1200

Autotrasformatore

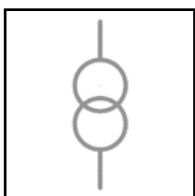

1201

Induttore

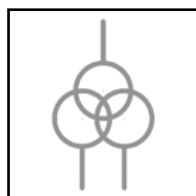

1202

Regolatore ad induzione trifase

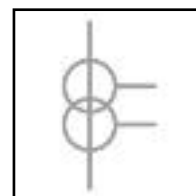

1203

Trasformatore 2 avvolgimenti

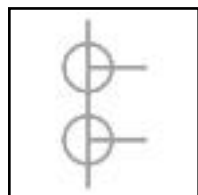

1204

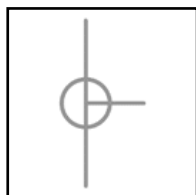

Trasformatore 3 avvolgimenti

1205

Trasformatore di corr. ad 2 avvol.
secondari con circuito magnetico comune

1206

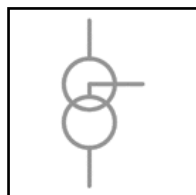

Trasformatore di corr. ad 2 avvol.
secondari con proprio circuito magnetico

1207

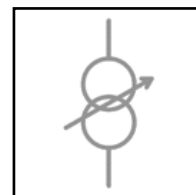

Trasformatore di corrente

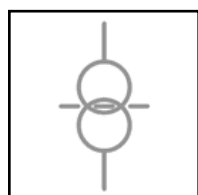

1208

Trasformatore di corrente con un
avvolgimento secondario con una presa

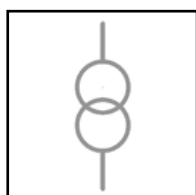

1209

Trasformatore di potenza 2 avvolgimenti
con presa sul secondario

1210

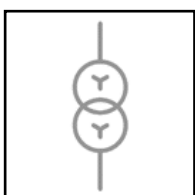

Trasformatore di potenza 2 avvolgimenti
regolabile

1211

Trasformatore di potenza ad 2
avvolgimenti con schermo

1212

Trasformatore di tensione

1213

Trasformatore trifase collegamento stella
stella

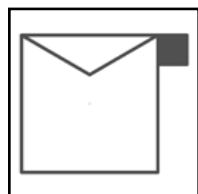

1214

Avviatore a gradini

1215

Avviatore a stella-triangolo

1216

Avviatore con ritorno automatico

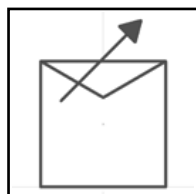

1217

Avviatore diretto mediante contattore per
2 sensi di marcia

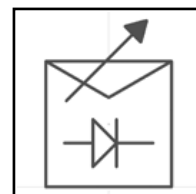

1218

Avviatore per motore

1219

Avviatore regolatore

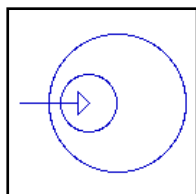

1220

Avviatore-regolatore a tiristori

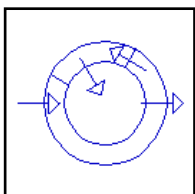

1221

Avviatore-regolatore autotrasformatore

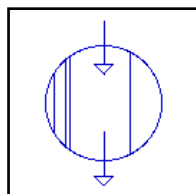

1222
