

Installing Cigraph License Activation

For ArchiSuite users

Copy the file [Cigraph License Activation 1.1 \(ACxx0\).apx](#) (where xx stands for 17, 18, 19, etc. and refers to ArchiCAD version) in ArchiSuite folder which contains the .apx files of Cigraph plug-ins.

If you have a previous version of **Cigraph License Activation** in ArchiSuite folder, you must overwrite or remove it.

You could also copy pdf manuals from [Documentation](#) folder to namesake Documentation folder inside ArchiSuite folder.

For single plug-in users

If you doesn't have an ArchiSuite folder but you have a single Cigraph plug-in you have two choices:

Choice 1

You could simply copy the entire [Cigraph License Activation](#) folder to Add-Ons folder of ArchiCAD.

If you have a previous version of Cigraph License Activation in another folder, you must remove it.

Choice 2

You could copy the file [Cigraph License Activation 1.1 \(ACxx0\).apx](#) (where xx stands for 17, 18, 19, etc. and refers to ArchiCAD version) to the folder of the Cigraph plug-in. If you have a previous version of **Cigraph License Activation** in this folder you must overwrite or remove it.

To complete installation you could also copy pdf manuals in [Documentation](#) folder to namesake Documentation folder that should exist inside Cigraph plug-in folder.
